GENERAL

Rated voltage/V	Rated power/W	LED numbers	IP Rating	Protection
12v DC	1.6w per light	18	20	CLASS III

PRE-INSTALLATION

- Prepare all the parts and tools required for the installation 1)
- 2) Turn off power before installation.
- 3) If the housing or glass diffuser is broken or damaged do not use it.

INSTALLATION

- 1) Decide location and spacing of lights. Remove body of light and cable from outer surface ring.
- 2) Mark holes and drill pilot holes for securing screws, and supply cable ensuring cable can be run discreetly to the driver.
- 3) Secure surface ring with screws provided. Connect PSU to suitable 240v supply.
- 4) Connect the power with 12VDC driver & push the lamp into the surface ring
- 5) Ensure the body of the lamp is securely fixed on the face of installation, then restore the power and check operation.

CARE IN USE

- 1) Please note this fitting has non replaceable parts
- 2) Always switch off or disconnect from the mains when cleaning the product.
- 3) We recommend cleaning with a soft dry cloth. Do not use scourers, abrasives or chemical cleaners.
