

This LED Mirror features a diffused illuminated border to the left and right of the mirror, which provides a uniform light output with no dark spots.

The Tunable function enables users to choose the most suitable colour temperature for their décor or individual preference, warm white, natural white or cool white. It can also be dimmed to create the desired ambience.

The mirror stays fog free due to the built-in demister pad, which switches off automatically after 30 minutes.

The mirror also has an IP44 rating making it suitable for use in a bathroom environment.
