

FEATURES

Flexible LED Strip is ideal for lighting many different areas in the kitchen. It can be used as plinth lighting, under cabinet lighting, under the worktop, and even on the top of cabinets to shine towards the ceiling. Aluminium extrusions are available to create a sleek look, which is particularly useful on kitchens without a pelmet. Our LED strip is available in various lengths, and the last strip on a run can be cut to size at intervals at 50mm if required. Our experienced technical department can assist with LED Strip design and plans if required, please contact us on 0113 286686, or email your requirements directly to our technical & design team on tech@sycamorelightingltd.co.uk.

The strip includes an adhesive back and must be installed onto a clean, dry surface.

Power Supply	12Vdc
Cable Length	Various available see over page
Number of hours	30,000
Colour appearance	Warm White, Natural White or Cool White
Colour Temperature	3000—3500, 4000—4500, 5000—5500 Kelvin
Wattage	4.8W per Metre
IP Rating	IP65
Cut marks	Every 50mm
LED's per metre	60
Chip size	3528

LED Strip Kits

SY7336A/WW, NW or CW Flexible LED Larder Kit

Kit includes—

- 2 x 2m LED Strips
- 1 x 20W LED Power converter (including 4 pin supply cable)
- 1 x Y Splitter
- 2 x 1m bridge cables
- 1 X Electronic door sensor switch
- 1 x pack of 10 U Brackets

SY7337A/WW, NW or CW Flexible 2M LED Starter Kit

Kit includes—

- 1 x 1m LED Strips
- 2 x 500mm LED Strips
- 1 x 20W LED Power converter (including 4 pin supply cable)
- 1 x pack of 10 U Brackets

LED Strips

- SY7338A/WW, NW or WW 12Vdc 500mm Flexible LED Strip Warm White, Natural White or Cool White
- SY7339A/WW, NW or WW 12Vdc 1M Flexible LED Strip Warm White, Natural White or Cool White
- SY7340A/WW, NW or WW 12Vdc 2M Flexible LED Strip Warm White, Natural White or Cool White

Suitable LED Power Converters

SY7350A 20W LED Power Converter with 6 way dist. block (runs maximum 4m)

Includes 1 x 4 pin supply cable SY7485 (from power converter to first strip)

SY7485

SY7351B 48W LED Power Converter with 6 way dist. block (runs maximum 10m)

Includes 1 x 4 pin supply cable SY7485 (from power converter distribution block to first strip)

SY7485

Accessories

- SY7341A 100mm Corner
- SY7342A 500mm Bridge Cable (strip to strip connection)
- SY7343A 1M Bridge Cable
- SY7344A 2M Bridge Cable
- SY7345A 5M Bridge Cable
- SY7347A Y Splitter
- SY7348A Electronic Door Sensor (includes 2 x 400mm leads, use bridge cables to extend if required)
- SY7349A Pack of 10 U Brackets
- SY7485 Additional 4 pin supply cable (from power converter distribution block to first strip)
