

The Sirius slimline tablet style cabinet lighting offers a superior light output, and has no visible LED points due to the diffused style cover.

The panel is only 6mm thick, with natural white light output and a white finish. The fitting is easily installed simply by fixing the supplied metal plate to the cabinet then the light will magnetically attach to the plate. It can also be easily removed for cleaning.

A 500mm connecting cable can be purchased separately to link each light together.

The Technical Spec....	
Fitting Type	LED
Voltage	12Vdc
