BATHROOM LIGHTING 2022/2023

WELCOME TO OUR NEW BATHROOM LIGHTING CATALOGUE FOR 2022/2023

Sycamore Lighting has been at the forefront of lighting innovation since 1998. Our dedication to quality has resulted in sustained growth by offering a diverse range of lighting and the very latest in technology. Major investment in new technologies and personnel, together with state of the art testing and training facilities has enabled us to cross over into different market sectors, whilst also retaining our reputation as a major supplier of lighting and control systems to the KBB markets throughout the UK and Europe.

Our Bathroom range features a stunning new collection of LED illuminated mirrors & mirror cabinets. A selection of our mirrors and cabinets are tunable white, enabling users to change the colour of the LED from warm white, natural white or to cool white to suit individual preference or decor. Some also feature Bluetooth Speakers, Shaver Sockets or USB charging ports.

We also have a comprehensive collection of LED lighting and lighting control systems for the kitchen & bedroom, please contact our sales department on sales@sycamoreLED.com or 0113 286 6686 to request a copy.

SUSTAINABILITY MATTERS

At Sycamore Lighting, we understand the need for sustainable products and practices to meet the needs of our current customers & stakeholders, without compromising the ability of future generations to meet their own needs. Please visit our website for our full Sustainability Matters promise.

5

YEAR
GUARANTEE

5 YEAR GUARANTEE

All of our Bathroom LED Lighting including our mirrors and mirror cabinets are covered by a 5 year warranty for your peace of mind. This excludes battery operated lighting, extractor fans, power converters, and accessories.

TUNABLE LED MIRROR CABINET WITH BLUETOOTH SPEAKER, SHAVER SOCKET, USB CHARGING & DEMISTER

This stunning single or double door illuminated LED Mirror cabinet is part of our Nouveau Noir range of matt black light fittings and accessories, and features a whole host of features. Complete with Bluetooth Speaker, a USB charging port and a built-in shaver socket, the Balmoral covers all requirements.

Internally, the Balmoral has a stylish matt black design, with a mirrored panel on the inside of the door and at the rear of the cabinet, along with two adjustable height glass shelves for storing bathroom accessories. Externally, the cabinets have mirrored panels to both sides, as well as both under and over cabinet illumination for a sleek look.

The diffused illuminated border to the front of the cabinets provides a uniform light output with no dark spots. The Tunable function enables users to choose the most suitable colour temperature for their décor or individual preference, warm white, natural white or cool white. It can also be dimmed to create the desired ambience.

The mirrors stay fog free due to the built-in demister pad, which switches off automatically after 30 minutes. The mirrors also have an IP44 rating making it suitable for use in a bathroom environment.

RECHARGEABLE LITHIUM BATTERY

The elegant Lorraine compact mirror is rechargeable using a USB cable (included), and lasts for up to 2 hours when fully charged. Simply touch the mirror to turn on or off.

The mirror comes with its own stand, but also features a reusable adhesive back to stick to surfaces such as ceramic, marble, acrylic, porcelain, enamel, and other mirrors.

It also has 2 x magnification, and built in eye protection with extreme low blue light. Available in natural white which closely simulates natural daylight.

TECHNICAL INFO

Lithium Battery	5V
Recharge Time	1.5 hours, from no charge to full charge
Charging	Via USB cable (included)
Colour Appearance	Natural White
Sensor	Touch/on/off
IP Rating	IP20
Guarantee	12 Months

PART CODE & DESCRIPTION

Lorraine Rechargeable LED Vanity Mirror SY9011

TITAN

PORTABLE LED VANITY MIRROR
RECHARGEABLE LITHIUM BATTERY

This stylish Titan mirror features an illuminated halo ring which is activated and dimmed at the touch of the built in button. The mirror also features a sensor, which turns the light off after 20 seconds if it senses no movement. The sensor stays activated for 15 minutes so will switch the light on again if it senses further movement. After this period it will enter a sleep state and will require re-activating via the button.

It is rechargeable using a USB cable (included), and lasts for up to 2 hours when fully charged.

TECHNICAL INFO

Lithium Battery	5V

Guarantee	12 Months

PART CODE & DESCRIPTION

Titan Rechargeable LED Vanity Mirror SY9021

RIGA PLUS

SWITCHABLE DIMMABLE

IP65 FIRE RATED DOWNLIGHT

Choose from 3000k, 4000k or 6000k by simply choosing your preference using the integrated switch on the front of the fitting. It is also fully dimmable from most standard wall dimmers, and also includes the power converter. The light output is equivalent to a 50W GU10 halogen lamp, but due to the latest LED technology it uses 85% less energy, helping to save money and the environment.

This ultra slim fitting is designed to allow loft insulation to be continuously run over the back of the fitting (IC Rated), and features a speed fit, tool free, loop in - loop out terminal. The colour appearance can be changed at any time without removing the fitting from the ceiling by simply removing the bezel.

TECHNICAL INFO

NOVA PRO

RECHARGEABLE LITHIUM BATTERY SENSOR LIGHT

The new Nova Pro lithium battery light is perfect for situating within cabinets, cupboards or drawers. The unit features a integrated PIR sensor, to automatically turn the light on when movement is sensed within a 4 metre range. When no further movement is detected after 20 seconds, the unit will turn itself off.

It features a slim, discreet profile, with a diffused natural white LED illuminated panel. It is also easily removed from its magnetic brackets for charging. USB-C charging cable included

The battery light will last for one month based on 5 minutes use per day, and takes 2.5 hours to charge from empty to fully charged.

TECHNICAL INFO

Finish	Silver
Lithium Battery	5V

KINETIC

SMART CONTROLS

Alexa, turn on
bathroom lights

Control either 12/24V lighting, or 240V lighting including Ceiling Lighting & Extractor fans, in the following ways;

Wireless Wall Plate Switch

(No wiring or batteries required)

Smart Phone or Tablet

(Using a free App)

Alexa or Google Voice Control

Look for the logos for compatible products

The new wireless Kinetic Switching system allows users to turn on their kitchen, bedroom or bathroom lighting in three different ways.

Lighting can be controlled manually by using the Wireless Kinetic Switch, through a Smart Phone or Tablet using the Smart Life App (free downloadable app via the QR code on the instruction leaflet), or by connecting it to a voice controlled intelligent personal assistant such as Amazon Alexa or Google Home.

Once connected, lighting can be operated with simple commands, such as "Alexa turn on bathroom lights" or "Google dim strip lights".

EASY DIMMING

Dimming is also possible, by using the 12V/24Vdc Furniture Lighting Receiver with built in dimming facility. 240V LED Lighting (with dimmable lamp fitted), and dimmable ceiling lighting can also be controlled using the 240v receiver. Simply holding down the switch activates the dimming process.

ENERGY SAVING

A small amount of kinetic energy is generated by the action of the clicking of the switch, which is converted to an electrical signal and sent to the receiver. The amount of energy used is very low, so the switch adheres to strict requirements on low power consumption & helps the environment.

WIRELESS SWITCHES - EASY TO INSTALL & RETRO-FIT

The Kinetic switches require no wiring or batteries which eliminates the need for installing back boxes, creating channels in walls and adjusting decor, thus speeding up the installation process and reducing labour time & costs.

The switch can be installed anywhere in the home, including the bathroom due to its IP67 rating. It can also be installed on a variety of surfaces, including glass, marble, ceramic tiles, and other smooth surfaces. The switches can be screwed to the surface, or stuck on with the adhesive pads supplied.

They can also be retro-fit onto existing back boxes as they are the same size as standard switches.

WIRELESS KINETIC DOOR SENSOR

The Kinetic Wireless door sensor switch (SY2446) is a battery free contact switch to turn lights on and off, so no batteries or wires are required.

When the door is opened the connected light switches on via a kinetic energy transfer to the receiver. Receiver required.

Download the Smart Life app here:

WIRELESS

MAGNETIC DOOR SENSOR

This wireless magnetic door sensor switch can turn lights on and off automatically. The switch is secured to the inside of a cabinet using the adhesive back, whilst the separate magnetic contact button is placed on the inside of the door. When the door closes the connected lights automatically switch off. Opening the door prompts the lights to turn back on.

Up to 4 switches can be run from one controller, making it perfect for switching lights on and off within bathroom cabinets. The switch runs on two 3V button batteries which are very easy to change when required. Unit includes connection for one light, a 12 Way Distribution Block can be purchased separately if required.

PASSIVE INFRA RED SENSOR

This sensor switch offers a discreet surface mounted or recessed solution for automatic switching of 12/24Vdc LED lighting. Connection via the Sycamore plug and play connector system allows connected lights to be turned on when it senses movement within a 3 metre distance at a 120 degree beam angle. The built-in timer can be adjusted from 30 to 150 seconds.

Unit includes connection for one light, a 12 Way Distribution Block can be purchased separately if required.

TECHNICAL INFO

Finish	White
Power Supply	12/24Vdc
Cable Length	Sensor Cable - 2m, Input Cable - 1m Output Cable - 1m
Max Current	10A
Sensor Distance	1 - 3m
Sensor Range	120°
Adjustable Timer	30 - 150 seconds
Wattage	12Vdc 100W 24Vdc 200W
IP Rating	IP20
Mounting	Recessed or Surface (Vertical or Horizontal)
Guarantee	12 Months

PART CODE & DESCRIPTION

Passive Infra Red Sensor	SY8815
12 Way Distribution Block (a)	SY7637

The Icon 15 is ideal for situating in smaller applications, such as toilets, en-suites, shower rooms and small bathrooms. Recessed into the wall or ceiling, it is stylish and unobtrusive, even in the smallest space. Icon 30 is quiet, powerful and designed for recessed or surface mounting in walls or ceilings in larger toilets, bathrooms and utility rooms.

The Icon 30S Low Voltage fan is ideal for locating within a shower cubicle or above a shower head.

AIR-STREAM PRO

NOUVEAU
NOIR

The Air-Stream Pro fan has a slim, compact and light design, suitable for bathrooms, en-suites and toilets. Designed to be fitted into walls and ceilings, this modern design is easy to wipe clean and duct over short lengths (2m max). The fan also features an integrated delay timer and a silicon steel motor with built in cut off protection.

This ultra-quiet fan is an ideal solution for removing damp moist air, odours and airborne pollutants.

PART CODE & DESCRIPTION

Air-Stream Pro 4" Extractor Fan Chrome	SY7059CC
Air-Stream Pro 4" Extractor Fan White	SY7059WH
An optional black or stainless steel effect cover is available to purchase separate (please purchase white fan plus the cover below)	
Optional Stainless Cover (fan purchased separate)	SY7007SS
Optional Black Cover (fan purchased separate)	SY7007BK

Finish	White/Chrome/Stainless Steel Effect/Black
Timer	Yes
Cut Out	105mm
Air Volume (cbm)	74.8
Noise Level (Db)	35
IP Rating	IPX4
Guarantee	2 Years

SHOWERLIGHT FAN

WITH LED LIGHT AND TIMER

Highly reliable fan in a modular design for ease of installation and maintenance. The fan light is designed to provide light/extraction over shower cubicles and is manually operated by a remote switch (not included) and also features a timer control. The fan comes with a fixing bracket and is compact and ductable over short lengths (3m).

The kit contains the fan with timer, 3m flex duct, ties, 12Vdc LED lamp in either natural or cool white, chrome and white grilles and an external grille.

This shaver socket is suitable for use in bathrooms as required by IEE wiring regulations BS7671: 2001 Section 601

BATHROOM REGULATIONS

All installations must comply to guidelines based on the zonal requirements. These regulations apply to domestic installations only.

SycamoreLED.com recommends that all electrical work carried out is done by a suitably qualified electrician in accordance with the current IET wiring regulations (18th edition).

Bathroom lights are classified using an IP (Ingress Protection) rating. The IP characters are followed by 2 numbers which refer to the level of protection against the ingress of foreign bodies (1st number) and protection against the ingress of liquids (2nd number).

Zone 0 - is inside the bath or shower. Any fitting used in this zone must be low voltage (max 12v) and be rated at least IP67 (immersion proof).

Zone 1 - is an area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IPX4 is required.

Zone 2 - is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone a minimum of IPX4 is required. Around a wash basin, a radius within 60cm is considered as zone 2.

Outside zones - has no special requirements unless water jets are likely to be used for cleaning purposes.

All zones - any electrical circuits in a bathroom must be protected by a 30 mA Residual Current Device (RCD). Electrical equipment exposed to water jets for cleaning purposes must be at least IPX5.

First digit - Solids

0	1	2	3	4	5	6
No protection	Protected against touch by hand (50mm)	Protected against touch by fingers (12mm)	Protected against tools and wires (2.5mm)	Protected against tools and small wires (1mm)	Limited dust ingress protection	Total dust ingress protection

Second digit - Liquids

0	1	2	3	4	5	6	7	8
No protection	Protection against condensation	Protection against water spray 15 degree from the vertical	Protection against water spray 60 degree from the vertical	Protection against water spray from any direction	Protection against low pressure water jets from any direction	Protection against high pressure water jets from any direction	Protection against immersion between 15cm and 1m depth	Protection against long term immersion under pressure

EnabledLED

LEDs and LED controls are the future of lighting, and as LED capabilities continue to evolve and expand, new markets are opening up all the time. Developing new, innovative solutions for tomorrow's new LED applications takes significant investment in research and design, so by joining the EnabledLED licensing program, Sycamore LED has gained access to over 490 Signify inventions and patented technologies, which we can now build into our own products. With access to these cutting-edge technologies, we can gain greater freedom to design optimal solutions for our products.

We can shorten our time to market and also achieve an excellent balance of cost-to-quality including cost-effectiveness in our component sourcing.

Please visit www.signify.com/enabled to confirm which companies are currently licensed in the scheme and what the EnabledLED licensing program covers in more detail.
