IMPORTANT—Please read prior to installation

- 1) Please read these instructions carefully before commencing any work
- 2) This product must be installed by a qualified electrician in accordance with the current IEE wiring regulations
- 3) To prevent electrocution switch the power off at the mains supply before installing or maintaining this fitting
- 4) Ensure others cannot restore the electrical supply without your knowledge
- 5) The PSU must be rated 12VDC and be compatible with the pre-wired connector system of this product
- 6) Never exceed the wattage stated

DIAGRAM

INSTALLATION

- 1) Isolate electricity supply before carrying out any electrical work.
- 2) Position a suitable 12V rated driver in a suitable location where it will not be subject to moisture or dampness
- 3) Decide position of each light, ensuring the fittings can be linked to the driver via the plug in connector system
- 4) The position of each light must be able to detect movement of a door (s)
- 5) Route cable in desired location to allow plug in connection to the driver
- 6) Remove front cover and use the screws supplied to fit the base unit to the carcasse
- 7) Clip on the front cover
- 8) Plug in each fitting to the driver
- 9) Connect primary side (240v) of the driver to a suitable power supply
- 10) Restore power and check operation of lighting

CARE IN USE

- 1) Please note this fitting has non replaceable parts
- 2) Always switch off or disconnect from the mains when cleaning the product.
- 3) We recommend cleaning with a soft dry cloth. Do not use scourers, abrasives or chemical cleaners.
